## Student Learning Strengths

During the 2021-2022 school year Navarro Middle School strengthened our Professional Learning Community process by involving district instructional coaches. Our department heads and instructional facilitators attended Visible Learning Training. Navarro Middle School is part of the Holdsworth Center Campus Leadership Program.

During the 2021-2022 school year Navarro Middle School first year monitor students Approached ELA with 100%, Meets 0% and Masters 0%. All first year monitor students Approached math with 100%, Meets 0% and Masters 0%. Navarro Middle School second year monitor students Approached with 100%, 87% Meets and 47% Master in ELA. In math, all second year monitor students Approached 93%, 53% Meets and 33% Master.

During the 2021-22 school year, Navarro Middle School students showed growth in the STAAR Reading assessment. Overall data indicates a +12% Approaches, +12% Meets, and +8% Masters which moved the campus from a D to a C rating.

### **Problem Statements Identifying Student Learning Needs**

**Problem Statement 1:** 30% of our students did not Approach on the Math STAAR assessment. **Root Cause:** Intentional small group instruction was started second semester. After school tutorials began later in the school year. A math teacher resigned during the 2nd Six Weeks of school which left a vacancy for the entire school year.

**Problem Statement 2:** 31% of our students did not approach on the Reading STAAR assessment. **Root Cause:** The ELA (English/Language Arts) team was not intentional with instructional minutes and implementation of small group instruction. Small group instruction was implemented too late in the school year.

**Problem Statement 3:** 67% of our SPED students did not Approach on the Reading STAAR assessment. **Root Cause:** The co-teach team did not collaborate and implement effective co-teach models consistently.

# School Processes & Programs

## School Processes & Programs Summary

NMS currently has a highly qualified staff per state certification standards that is professional and attentive to the needs of students. Research demonstrates that teacher retention goes hand in hand with professional development. Here at NMS we provide various opportunities for professional development on campus and off campus. Our teachers select their professional development based on areas of growth. NMS also sends teachers to Region IV sessions, conferences, and any other applicable trainings for personal growth with classroom management or any other identified need. The administrative team conducts weekly classroom walk throughs (CWTs) to ensure teachers are implementing strategies learned during their PD sessions. The team provides teachers with feedback so they know what is going well and what should be improved. Professional Learning Communities (PLCs), both content teams and by departments, meet on a regular basis to evaluate and adjust instruction to meet the needs of students. During a PLC session, novice and veteran teachers collaborate on instruction to ensure academic success. Mentor teachers are assigned to any first year teachers and buddy teachers are assigned to experienced teachers who are new to the campus to provide support with campus policies and procedures as they learn to navigate the campus. They meet regularly to provide additional information to teachers who are new to the profession. NMS participates in the LCISD Job Fair in the Spring to recruit highly qualified teachers to join the team.

## School Processes & Programs Strengths

All NMS teachers and instructional paraprofessionals are highly qualified. NMS will continue to recruit the most highly effective teachers and paraprofessionals. At NMS we currently have two instructional facilitator (Reading/Social Studies and Math/Science) and a Campus Testing Coordinator that aides with instructional professional development. Each of these staff members play an integral role in supporting teachers, staff, and students.
