

# Practicum in Culinary Arts

## At-A-Glance - Lamar CISD

<b>Ongoing Skills Imbedded All Year</b>	<b>Course Description</b>		
	<p>Practicum in Culinary Arts is a unique practicum that provides occupationally specific opportunities for students to participate in a learning experience that combines classroom instruction with actual business and industry career experiences. Practicum in Culinary Arts integrates academic and career and technical education; provides more interdisciplinary instruction; and supports strong partnerships among schools, businesses, and community institutions with the goal of preparing students with a variety of skills in a fast-changing workplace.</p> <p><b>NOTE 1:</b> The practicum course is a <b>paid or unpaid capstone experience</b> (on/off campus – café, catering, and/or fund-raising events) for students participating in a coherent sequence of career and technical education courses in the Hospitality &amp; Tourism Career Cluster. This is a suggested scope and sequence for the course content. This content will work with any textbook, instructional materials or practicum experience. If locally adapted, make sure all TEKS are covered.</p> <p><b>NOTE 2:</b> Completion of skill sets may be demonstrated throughout the practicum. Therefore, content based on the TEKS does not have to be delivered sequentially. The major reason students take a practicum is to provide additional time on task for learning specialized skills. In most cases where the Extended Practicum is added to the Practicum, it is because the student is spending more than 15 hours per week at his/her training station (place of employment or internship).</p> <p><b>NOTE 3:</b> The information in this scope and sequence document does not describe detailed activities, because the activities will vary from student to student and training station to training station. The intent is that students incorporate and use previously learned knowledge and skills related to the career cluster.</p>		
	<b>Professional Standards/Employability Skills/Technical Skills</b>		
	<p>PCA 1(C) The student will exercise punctuality and time-management skills.            PCA 1(E) The student will demonstrate effective teamwork and leadership.
